

## Corporate Overview

Over 30 years of industry expertise advising governments and government agencies on implementing sound financial management, accounting, compliance and Information Technology practices and training programs. We work with local, state, and federal governments on development and implementation of sound accounting, budget, reporting and auditing systems.

Established in 2006, TJG has assembled a team of highly educated and accomplished experts with US Federal government, US Military, academia, national and international business accounting and consulting experience who are authorities in areas of finance and accounting and who specialize in government and financial management issues to ensure our clients' success.

TJG's team of experts have advised governments throughout the world at high levels on development of budget classification, accounting and auditing systems and charts of accounts, as well as conducting workshops for financial managers. We have provided financial analyses for government and government agencies, updated accounting systems and software, provided fraud prevention and fraud detection services. We have planned, implemented, and managed systems integration and complex public sector projects specializing in e-Governance, public sector management, and central banking.

## Sample of Government Clients

- **US Department of the Interior** – Performed compliance audits of the administrative expenditures and obligations of the Wildlife & Sport Fish Restoration funds.
